Proposed Rotation Plan

Description of the Plan:

"In the eyes of the competition motorcyclist, the word rotation means that he will be allowed the opportunity to participate in competitive events in various areas of the desert" (Quote from Motorcyclist's Legal Defense Fund Proposal).

The above is the basis of the Rotation Plan as proposed by District 37, A.M.A.

From May 9, 1976, through December 12, 1976, District 37, A.M.A. proposed to hold 28 desert motorcycle races on NRL lands. As presently applied for, these 28 desert races are scheduled for 5 basic areas; 1) Red Mountain Area (this includes the northeastern portion of I.C.M.P. Area 11 and Area 14); 2) Johnson Valley (this includes all of Areas 30 and 29); 3) Rand (this includes the southwestern portion of Area 11 all in Bakersfield District); 4) Kramer (this includes Areas 15 and 28); and 5) Shadow Mountain (this includes all of Area 27). These 28 events were originally applied for as follows: (some changes have been made in the process of issuing annual permits)

Red Mountain, 3 events, Johnson Valley, 17 events, Rand, 4 events, Kramer, 2 events and Shadow Mountain, 2 events.

The Rotation Plan proposes to take these 28 events and spread them into 9 basic areas rather than the 5 described above. The 4 additional areas are: 1) Red Rock (this includes all of Area 8 and the central portion of Area 6); 2) Devils Playground (this includes all of Area 25 with additional area to the north and south of Area 25); 3) Coyote Dry Lake (this includes the south eastern portion of Area 16); and 4) Stoddard Ridge (this includes the area north of Area 30, east of Area 29 and south of Highway 40) (see Appendix #1). The Rotation Plan would divide the 28 events thusly: Red Rock, 4 events, Devils Playground, 3 events, Red Mountain, 3 events, Coyote Dry Lake, 3 events, Stoddard Ridge, 3 events, Johnson Valley, 6 events, Shadow Mountain, 2 events, Rand, 2 events, and Kramer, 2 events.

All events in the 4 new areas as proposed in the Rotation Plan, would be limited to <u>old</u> existing race courses.

Feasibility of the Plan:

The Rotation Plan proposes to hold desert races in 9 basic areas. Five of these areas (Red Mountain, Johnson Valley, Rand, Kramer and Shadow Mountains) are currently being utilized for races and blanket EARs have been prepared.

Three of the areas: 1) Red Rocks, 2) Coyote Dry Lake, and 3) Stoddard Ridge, fall outside of areas designated by the I.C.M.P. for competitive events. Major Environmental Assessments and a change in the I.C.M.P. would be necessary before an event could be authorized in any of these three areas.

The other area, Devils Playground, at least that portion that falls into I.C.M.P. Area 25, was designated as a competitive event area with a Bureau system of courses to be developed. At present, only a small 4-wheel drive non-competitive event course has been developed in the area (The 1974 Barstow/Vegas course traversed a portion of this area). A first cut, outline preparation plan has been prepared on what it would take to resolve the Special Design Designation of Area 25 (see Appendix #2). This plan indicated that a total of 173 man months would be required as an EIS would undoubtedly be necessary before any portion of this area could be designated as open or to develop a system of courses to be utilized for desert motorcycle races.

Two alternative areas exist, within the designations of the I.C.M.P., that could be utilized for competitive events.

Area #4, Olancha Open Area: A Blanket EAR has not been prepared to date and it would require 10 man months to complete one. These 10 man months are within the capability of the Bakersfield District during the 1977 fiscal year.

Area #37 Cadiz Valley/Danby Lake Open Area: The current Blanket EAR for this area needs up-dating prior to authorizing events in this area. This up-date would require 2½ man months time and is within the capability of the Riverside District during 1977 fiscal year.

Status of the ORV Management Plan

The Present Work Load:

The Riverside District has issued a permit either group or individual for or received application for 62 competitive events for the period June 1, 1976 - February 13, 1977. This includes the second application for a 1976 Barstow/Vegas event. All but 6 of these events have been applied for and issued under a group permit. 6 annual permits have been issued to date for 54 individual events (A group permit to Imperial Racing Association for two events in late 1976 is presently being processed). These 6 group permits were issued to: 1) District 38 A.M.A. (San Diego Sports Comm.), 16 events; 2) Styrola, Inc. (U.R.A.), 3 events; 3) California Racing Club (C.R.C.), 7 events; 4) So. CA. Timing Assn. (Time Trials all on El Mirage Dry Lake), 5 events; 5) District 37, (A.M.A.), 20 events; and 6) Desert Racing Assn. (D.R.A.), 5 events (see Appendix #3).

We estimate this will require a total of 35.5 man months of Ranger time to maintain this program at our present level of compliance. This represents 30% of the total District Ranger capability during this period.

Status of the Objectives of the ORV Management Plan in the Riverside District

The Management Plan for Desert Off-Road Vehicle Events Establishes 6 Objectives as follows:

1. Devote equitable monies, manpower and management techniques to all recreation users. Establish procedures so that Desert Rangers eventually spend no more than 25% of their work time on ORV events, freeing them for enhancing recreation experiences of other users and for visitor safety and management duties.

2. Delineate manageable areas and trails for events in accordance with policies in the California ORV event manual and with the legislation that prompted those policies.

3. Establish annually the maximum number of events that BLM can administer properly; considering user needs, safety considerations, resource protection, staff capability, ranger work priorities and maximum public benefits regarding organized ORV use.

4. Gain management control, reducing unforeseen workloads and instituting a programmable case load for planning and budgeting purposes.

5. Simplify permit procedures. Simplify?

6. Evaluate the event plan, beginning with its implementation. The evaluation will be comprised of three segments, each to be accomplished by a contract for academic study:

   a. ORV event users needs and satisfactions.
   b. Resource impacts and capabilities.
   c. Maintenance and rehabilitation methods on areas and trails used for ORV events.

Meeting objectives 2, 3, 4 and 5 will all work toward meeting the goal of 25% of Ranger work time being utilized for ORV events. As we strive to meet these objectives, we will continue to monitor the program to determine if objective # 1 is being met.

To meet objective #2, we will continue to work with event sponsors, on a demand basis, to complete the Bureau system of courses in Areas 14 (Red Mountain), 27 (Shadow Mountains), 28 (Kramer Hills), and 29 (Stoddard Valley), supplementing our Blanket EAR For any portion of a course not previously identified. Up-date Blanket EAR in Area 37 (Cadiz Valley) and then on a demand basis, work with the event sponsors in establishing a system of courses, supplementing the Blanket EAR when necessary as this system of courses is developed. Using existing EAR's such as the B.O.R.R.A. 200 as a base, on a demand basis, work with event sponsors in establishing a system of courses and preparing Blanket EAR's in Areas 45 (Ford Dry Lake), 47 (Little Chuckwalla Mtn.), 64 (Pinto Wash), and 67 (East Mesa). Establishing a system of courses in Area 25 (Mojave Basin) is not within District capabilities within the foreseeable future. Because of the private land problem in Area 15 (Fremont Peak) we have no active proposal to establish a Bureau system of courses. To

date we have had no demand to hold an event in Areas 21 (Ivanpah) and 32 (Needles) so no active plan to establish these Bureau systems exists.

Our experience of the last 4 years indicates that the number of competitive events and the number of participants have decreased rather than increased as was expected. We don't expect this decrease to continue until the competitive event in the desert no longer exists, but it does indicate that this use is basically static as to numbers of events and participants. If this is true, objective # 3 may already have been reached. As we strive to meet the other objectives of this plan we will continue to monitor the number of events and participants and our capability to administer them properly (see Appendix #4).

The "Annual Permit" is the principle tool we are using to meet objectives 4 and 5. We have had only part of one season experience with the Annual Permit, so no accurate estimate can be made on the time savings, if permit procedures are simplified and how much or if it will bring about a better programmable case load. Indications are that over the period of a complete season, the time saved will be significant. The annual permits tend to induce much better pre-planning on the part of the sponsors. This much improved pre-planning should produce a much better programmable case load.

Having a blanket insurance policy and bond alone have simplified permit procedures, and even though an increased complexity of conflict solving existed at the front end of issuing an annual permit, the over-all complexities of conflict solving should be reduced (see Appendix #5).

We are somewhat uncertain as to the District's role in the evaluation contracts, so we have not developed a definite plan for accomplishing this objective.

Barstow/Vegas Type Event

Description of Present Application:

CA-060-SR6-40 Case File contains an application for a Barstow to Vegas motorcycle event to be conducted on November 28, 1976. This application differs from the previous application (CA-060-SR6-38) which was denied, in that the start and camping areas have been moved about 8 miles east with the course following the exact routing of the 1974 event. These differences do not significantly change the preparation plan as prepared and submitted for the previously denied permit. Prior to approval of this application, an EIS would undoubtedly be required. A minimum of 7 months time with an expenditure of 23 man months would be needed to complete this EIS (see Appendix #6).

We have great confidence in the abilities of our Rangers, but the alternative of utilizing a re-deployment of Ranger priorities into the Environmental Assessment of a Barstow/Vegas event is not viable. The level of expertise needed in non-living components such as minerals, realty and soils is lacking.

Also the necessary role of coordination with the State Preservation Officer and the Committee on Historic Preservation would be lacking without extensive involvement of the District Archaeologist.

Energy commitments preclude the involvement of District Resource Specialists, or the NBEI team in the foreseeable future, in anything other than the following:

Lucerne Valley EIS
Allen-Warner EIS
IPP EIS
SOHIO Coordination
Red Mountain Geothermal EAR
Yuha Geothermal EAR
Anza Geothermal EAR
N. Salton Sea Geothermal EAR
Dunes Geothermal EAR
Glamis Geothermal EAR

APPENDIX # 1

CALIFORNIA DESERT VEHICLE PROGRAM

(BLM'S INTERIM CRITICAL MANAGEMENT PROGRAM FOR VEHICLE USE ON THE CALIFORNIA DESERT)

DESIGNATIONS

CLOSED — VEHICLE TRAVEL IS PROHIBITED. ACCESS BY MEANS OTHER THAN MOTORIZED VEHICLE IS PERMITTED.

OPEN — VEHICLE TRAVEL IS PERMITTED ANYWHERE IN THE AREA IF THE VEHICLE IS OPERATED RESPONSIBLY IN ACCORDANCE WITH REGULATIONS.

RESTRICTED — PLANS WILL BE PREPARED IN CO-OPERATION WITH OTHER GOVERNMENTAL AGENCIES AND PUBLIC INTEREST GROUPS TO PROVIDE FOR VEHICLE USE AND RELATED FACILITIES SUCH AS CAMPING AREAS AND ACCESS ROADS. UNTIL PLANS ARE COMPLETED VEHICLE USE IS PERMITTED ONLY ON EXISTING VEHICLE ROUTES.

SPECIAL DESIGN

DESIGNATED ROADS AND TRAILS — VEHICLE TRAVEL IS PERMITTED ONLY ON ROADS AND TRAILS DESIGNATED BY THE BUREAU. UNTIL DESIGNATION IS ACCOMPLISHED, VEHICULAR TRAVEL IS LIMITED TO EXISTING ROUTES AS DEFINED BELOW.

EXISTING VEHICLE ROUTES — EXISTING VEHICLE ROUTES ARE THOSE ESTABLISHED BEFORE NOVEMBER 1, 1973, WITH SIGNIFICANT SURFACE EVIDENCE OF PRIOR VEHICLE TRAVEL AND A MINIMUM WIDTH OF TWO FEET. WIDENING OR EXTENDING OF THESE ROUTES IS PROHIBITED. IF NATURE ELIMINATES PORTIONS IT DOES NOT EXCLUDE VEHICLE USE.

SYMBOLS

BLM COMPETITIVE EVENT SYSTEM - ORGANIZED COMPETITIVE EVENTS ARE PERMITTED ONLY IN DESIGNATED AREAS ON DESIGNATED COURSES IN ACCORDANCE WITH BLM PROCEDURES, (EXCEPT THAT ENDURO EVENT APPLICATIONS WILL BE CONSIDERED IN AREAS DESIGNATED "OPEN," "EXISTING VEHICLE ROUTES" AND "SPECIAL DESIGN.")

SPONSOR OPTION COMPETITIVE EVENT COURSES - NO BLM DESIGNED SYSTEM OF COURSES. SPONSORS MAY DESIGN THEIR OWN IN ACCORDANCE WITH BLM REQUIREMENTS.

THE GENERAL ALIGNMENT OF A CROSS COUNTRY COURSE WHERE A COMPETITIVE EVENT APPLICATION WILL BE CONSIDERED UNDER BLM REGULATIONS.

CORRIDOR — THE GENERAL ALIGNMENT OF AN ACCESS ROUTE FOR VEHICLE USE UNDER SPECIAL MANAGEMENT.

PRIVATE AND STATE OWNED LANDS - THIS PROGRAM APPLIES ONLY TO THE U.S. BUREAU OF LAND MANAGEMENT'S NATIONAL RESOURCE LANDS. WHERE A HIGH PERCENTAGE OF PRIVATE LANDS ARE INTERSPERSED WITH NATIONAL RESOURCE LANDS AND THERE IS NO DESIGNATION SYMBOL, VEHICLE TRAVEL IS LIMITED TO PUBLIC ROADS.

CALIFORNIA DESERT STUDY BOUNDARY

WARNING: UNEXPLODED MILITARY ORDNANCE SUCH AS SHELLS, BOMBS, ETC. MAY BE FOUND IN THIS AREA. IF FOUND DO NOT TOUCH. NOTIFY NEAREST AUTHORITY. THESE HAZARDS MAY OCCUR IN OTHER UNKNOWN AREAS OF THE DESERT.

NOTES:

IF NOT OTHERWISE PROHIBITED BY STATE OR LOCAL LAWS, OR BLM REGULATIONS, DESERT USERS MAY STOP ALONG ROADS AND TRAILS FOR CAMPING, PICNICKING, SIGHTSEEING, ROCKHOUNDING AND OTHER PURPOSES. SUCH STOPPING AND PARKING OF VEHICLES IS LIMITED TO 300' ON EITHER SIDE OF ROADS OR TRAILS AUTHORIZED FOR USE. EXCEPTIONS TO THIS LIMITATION MAY BE PERMITTED FOR LARGE CONCENTRATIONS SPONSORED BY ORGANIZATIONS IF AUTHORIZED BY BLM DISTRICT OFFICES.

"VEHICLE" MEANS ANY MOTORIZED VEHICLE

ROTATION PLAN AREAS

#1 RED MOUNTAIN
#2 RAND
#3 RED ROCK
#4 KRAMER
#5 SHADOW MOUNTAIN
#6 JOHNSON VALLEY
#7 STODDARD RIDGE
#8 COYOTE DRY LAKE
#9 DEVILS PLAYGROUND

(1) NO. EVENTS - CURRENT STATUS
(1) NO. EVENTS - PROPOSED ROTATION PLAN

APPENDIX # 2

NUMBERED AREAS REFER TO THE MAP ON THE OPPOSITE PAGE

(1) **EUREKA DUNES** — Special Design
Beautiful sand dune area rich in natural and cultural values, located 20 miles east of Big Pine. Wide variety of desert plants and animal life. High archeological values are known to exist but yet to be studied. Special design is needed to identify specific areas for vehicle use and areas of non-use to reach a balance between active and passive recreation and natural value preservation.

(2) **NORTH SALINE VALLEY** — Closed
Located 15 miles northeast of Owens Lake. Probably the last primitive desert valley and mountain association where the impact of modern man is not in evidence. Present vehicular use is light and roads and trails are few. The area is closed to retain and protect its pristine setting.

(3) **SALINE-PANAMINT** — Designated Roads & Trails
Located east of the Inyo and Argus Mtns. and includes Saline and Panamint Valleys. An area relatively unused by modern man and containing unique scenic desert qualities, natural warm and fresh springs, numerous wildlife values, vegetative communities associated with the riparian ecosystem and high archeologic values. This designation provides adequate recreation & vehicular access & protects the natural resource values from further deterioration.

(4) **OLANCHA** — Open
Located south and east of Owens Lake between Highways 395 & 190. Relatively accessible area where known resource values are low. Contains a variety of terrain, including dune features. Good place for "vehicle" oriented recreationists. Competitive events will be encouraged in this area.

(5) **DARWIN FALLS** — Closed
Located 1 mile south of State Hwy. 190 at the north end of the Argus Range near the historic mining town of Darwin. A rare, beautiful desert canyon with a fresh water stream and water falls. Closure to vehicles enhances the recreation experience provided by walking up the wash a short distance to the falls.

(6) **WALKER PASS/EL PASO** — Designated Roads & Trails
(7) **LONE TREE CANYON** — Designated Roads & Trails
Northwest of Mojave. A scenic wildlife area with high archeological & historical values. Attracts heavy recreation activity. This designation preserves the resources and allows continued recreation use.

(8) **DOVE SPRINGS** — Open
Located 25 miles north of Mojave. A popular recreation vehicle area that offers a variety of roads & trails and rugged hilly terrain. Area around the springs is also popular for bird hunting. Management will eventually include hillside rehabilitation of recreation vehicle use.

(9) **JAWBONE CANYON** — Special Design
S.W. of Red Rock Canyon. This popular recreation vehicle area has conflicts with intermingled private land and livestock use. Requires a special design management program.

(10) **TORTOISE PRESERVE** — Closed
North of California City. Extensive research has shown this to be an outstanding habitat for the desert tortoise.

(11) **RAND MOUNTAINS/SPANGLER HILLS** — Open
Northwest of Randsburg. This area receives heavy use by recreation vehicles. Competitive events will be encouraged in this area.

(12) **RANDSBURG/JOHANNESBURG** — Designated Roads & Trails
This designation refers to public land surrounding the communities of Randsburg & Johannesburg. Vehicle use will be restricted to designated roads and trails to reduce conflict with local residents.

(13) **TRONA PINNACLES** — Designated Roads & Trails
Twenty miles east of Ridgecrest at the south end of Searles Lake. These pinnacles are very unique — the most impressive example of tufa formations in North America. The closing of certain roads within the area will protect their scenic and geologic quality.

(14) **RED MOUNTAIN/CUDDEBACK** — Restricted to Existing Vehicle Routes, and Competitive Courses
Located on the east side of Hwy. 395 approx. 20 miles north of Kramer Jct. Continued use of this popular competitive area will be permitted on designed competitive courses. All other vehicular travel is restricted to existing routes.

(15) **FREMONT PEAK** — Restricted to Existing Vehicle Routes
Located on the east side of Hwy. 395 approx. 6 miles north of Kramer Jct. Because of the alternating private & public land pattern in this area activity is limited to competitive events on designed courses. All other vehicular travel is restricted to public roads. Competitive events permitted.

(16) **CALICO/COYOTE LAKE** — Designated Roads & Trails
Including Calico Hills, Superior Valley and Black Mt. north of Barstow. To accommodate vehicles and still protect archeological, historical, mineral & scenic values, access routes are provided for by this designation.

(17) **AMARGOSA CANYON** — Closed
Located 40 miles north of Baker — east of State Highway 127. Outstanding natural values include rare and endangered wildlife, colorful canyon scenery, unique year-round water habitat supporting abundant wildlife populations, and rich historic and archeologic values — all sensitive to damage by vehicles.

(18) **DUMONT DUNES N.W.** — Open
Includes the N.W. portion of Dumont Dunes. Very intensive use by recreation vehicle groups from California and Nevada. A special design of the dunes will determine the boundary between the open and closed use areas.

(19) **DUMONT DUNES** — Special Design
Forty miles north of Baker and east of State Highway 127. Intensively used by recreation vehicles because of its unique sand dune facilities. Wildlife, archeological, soil and historical values are high. A special design is needed to determine non-vehicle use zones, identify access roads, control indiscriminate camping and establish boundaries between closed and open areas.

(20) **KINGSTON MOUNTAINS** — Designated Roads & Trails
Eight miles east of Tecopa. This range of mountains contains high value resources such as minerals, scenic qualities, wildlife and vegetative features. This designation will protect these values from damage.

(21) **IVANPAH VALLEY** — Special Design
Bisected by I-15 lying along the California-Nevada border. Present use is intensive. A special design plan is needed to provide competition race courses, play areas, and protect the wildlife and archeological values.

(22) **CLARK MOUNTAIN** — Closed
Located 3-½ miles N.W. of Mountain Pass, north of I-15. An isolated mountain peak, elevation 7929 feet, and containing one of the desert's most fascinating collections of plants, from outstanding cactus and succulent species on the slopes, to a small white fir forest near the peak itself. A well known scenic landmark.

(23) **EASTERN MOJAVE** — Designated Roads & Trails
Located between freeways I-40 and I-15. Resources include archeology, historic sites, wildlife, scenic areas & forage production. This area appeals to a broad range of recreation interests. This designation will insure access and protect the rich resource values.

(24) **KELSO DUNES** — Closed
Located 4 miles south of Kelso and west of Kelbaker Road. A unique & isolated dune system. Relatively little vehicle use. Outstanding scenic area with a variety of plants and animals. The scientific importance of this area merits special attention and care in management.

(25) **MOJAVE BASIN** — Special Design
A large area located south of I-15 in the vicinity of Baker. The attractions to vehicle oriented recreationists include rugged terrain, unusual scenery, remoteness and a variety of surface. Because of suspected high archeological values and the need for further investigation into the location of these values, the area is designated "special design." Competitive events will be permitted.

(26) **EL MIRAGE LAKE** — Special Design
Located 15 miles west of Victorville. The mixed ownership land pattern & variety of uses necessitates a special design plan. The dry lake surface features attract a variety of vehicle use such as sand sailing, gyro-planes, sail planes, motorcycles, and 4-WD. Special design is needed to reduce safety hazards, establish recreation and vehicle use areas, and control camping and damage to adjacent private land:

NOTE: "Special design" is needed in the following three areas because of intermingled private land:

(27) **SHADOW MOUNTAINS** — Special Design Competition
Northwest of Adelanto.

(28) **KRAMER HILLS/IRON MOUNTAIN** — Special Design Competition
Northeast of Adelanto.

(29) **STODDARD VALLEY** — Special Design Competition
South of Barstow and east of I-15. This is a popular area for vehicle oriented recreationists. Is easily accessible from I-15 and contains a variety of terrain features including the opportunity to travel cross-country.

(30) **UPPER JOHNSON VALLEY** — Open
Located 25 miles east of Lucerne Valley. This accessible area offers a variety of terrain and is particularly good for cross-country travel. Known resource values are low. Competitive events will be permitted.

(31) **BIGELOW CHOLLA** — Closed
Located in the Sacramento Mtns. 18 miles west of Needles. This unique stand of Bigelow cholla is closed to preserve its scenic and botanic values.

(32) **NEEDLES** — Special Design
Located west of Needles & provides a buffer around the city. The Bureau of Land Management will work with city officials for planned urban expansion and development of competitive recreation vehicle courses.

(33) **WHIPPLE MOUNTAINS** — Closed
Between the Colorado River and State Highway 95 — north of aqueduct road. Primitive roadless area where sensitive resource values include outstanding scenery, sparse but essential vegetation, rare and endemic wildlife, archaeology and history.

(34) **TURTLE MTNS. INTERIOR** — Closed
Fifteen miles northeast of Vidal Junction. High scenic values dominated by the Twin Mopah Peaks, colorful geologic formations, rare bighorn sheep and natural springs. Area has primitive undisturbed qualities due to limited vehicular access.

(35) **TURTLE MTNS. PERIMETER** — Designated Roads and Trails
Surrounding the Turtle Mountains. The designation of roads is needed to provide vehicle access to camping areas, popular rockhounding areas and to enhance general recreation opportunities. Designation will also protect fragile plant communities and soil surfaces from further deterioration.

(36) **OLD WOMAN MOUNTAINS** — Designated Roads & Trails
Fifteen miles south of Essex. Area has high scenic values and is popular among rockhounds. Designation protects natural values. Sufficient roads are open to allow access to rockhounding areas.

(37) **CADIZ VALLEY/DANBY LAKE** — Open
Located 20 miles southeast of Amboy. A rugged area large and remote but offering good opportunity for vehicle oriented activity. Competitive events will be permitted.

(38) **DALE DISTRICT** — Special Design
South of Twentynine Palms. This area borders Joshua Tree National Monument and has high scenic and historical values. Providing for recreation use & protecting these values will require special design for recreation management.

(39) **EAST MORONGO** — Designated Roads & Trails
Located S.W. of the community of Morongo Valley. Current vehicle activity is limited to a few roads and trails. Future protection is provided by the limiting of travel to designated roads and trails.

(40) **WHITEWATER** — Designated Roads & Trails
Located adjacent to San Bernardino National Forest west of Morongo Valley. A relatively unused area containing unique scenic mountain-desert qualities. This designation protects natural resource values from further deterioration.

(41) **BIGHORN** — Designated Road & Trails
(42) **GRAPEVINE** — Designated Roads & Trails
Foothill area lying along north edge of the San Bernardino Mountains adjacent to the national forest boundary. Current vehicle use is light but rapidly increasing. Natural vegetation, soils and wildlife values are subjected to damage unless use is controlled by designation.

(43) **DESERT LILY** — Closed
Eight miles north of Desert Center. Outstanding garden of wildflowers including the unique Desert Lily.

(44) **PALEN DRY LAKE** — Special Design
Located 10 miles east of Desert Center, north of I-10. A popular vehicle area with varied opportunities for cross-country travel. The area also has known historical and archeological values. Large blocks of private land and areas where WW II ordnance has not been cleared.

(45) **FORD DRY LAKE** — Open
Northeast of Desert Center and north of I-10. A popular recreation vehicle area containing opportunities for cross-country travel. Competitive events will be permitted.

(46) **MC COY VALLEY** — Open
Twelve miles northwest of Blythe. Competitive events will not be permitted in this popular family play recreation vehicle area.

(47) **LITTLE CHUCKWALLA MOUNTAINS** — Open
Fifteen miles southwest of Blythe. A popular rockhound area offering good opportunities for scenic cross-country travel and family play. Other known resource values are minimal. Competitive events will be permitted in the northern portion of this area.

(48) **BIG CHUCKWALLA MOUNTAINS** — Designated Roads & Trails
Located south of Desert Center. This popular recreation area has outstanding wildlife, scenic and archeological values. This designation accommodates vehicle recreation & preserves natural values.

(49) **CHIRIACO SUMMIT** — Open
South of I-10, 30 miles east of Indio. Accessible, rugged area with few resource values that can be damaged by intense vehicle use. Competitive events will not be permitted in this popular family play area.

(50) **OROCOPIA FOOTHILLS** — Designated Roads & Trails
Located 30 miles east of Indio. Heavy recreation vehicle use is encroaching upon the area and is seriously impacting wildlife and vegetative communities and unique geologic formations.

(51) **OROCOPIA MOUNTAINS** — Closed
Located 25 miles east of Indio & south of I-10. A colorful, rugged mountain range containing some of the desert's most interesting geologic wonders. A training ground for the world's first moon explorers.

(52) **MECCA FOOTHILLS** — Special Design
Ten miles southeast of Indio. Intensive recreation vehicle use is causing rapid deterioration of the scenic values and increasing soil erosion and loss of vegetation. A special design is needed to reduce damage to the resources.

(53) **MECCA HILLS INTERIOR** — Closed
Twelve miles southeast of Indio and north of State Highway 195, east of Mecca. Colorful geologic formations cut by washes. Extensive areas for easy walking and passive recreation experiences. Vegetation, soil and rock surfaces show signs of overuse.

(54) **SALT CREEK** — Closed
Located 28 miles southeast of Indio east of the Salton Sea. An outstanding example of desert ecosystem developed around a saline watercourse. Valuable area for research and long term study of such systems.

(55) **SANTA ROSA MOUNTAINS** — Designated Roads & Trails
Twelve miles west of Indio. This rugged and scenic area is prime bighorn sheep habitat. This designation provides the level of protection needed to minimize impact on this endangered resource.

(56) **SAN FELIPE/SUPERSTITION HILLS** — Special Design
Located east of Anza Borrego State Park. A combination of intermingled private and public lands. High resource values & positive recreation potentials indicate need for a special design program. Competitive events will be permitted in this area.

(57) **SAN SEBASTIAN MARSH** — Closed
Along San Felipe Creek 11 miles south of Salton City. This unique riparian-aquatic habitat will be closed to vehicular access to support scientific studies, research and preserve its natural integrity.

(58) **NAVY LEASE** — Special Competition Area
Located north of Plaster City. These lands are leased to the U.S. Navy by the Bureau of Reclamation for military purposes. The Bureau of Land Management has an agreement with the Navy to issue permits for organized competitive events only.

(59) **COYOTE MOUNTAIN** — Designated Roads & Trails
Small mountain range located approximately 7 miles west of Plaster City. Restricting vehicle use to designated roads & trails protects the high scenic quality of such sites as Painted Gorge and certain canyons rich in marine fossil deposits.

(60) **PLASTER CITY** — Open
Northwest of I-80, 20 miles west of El Centro. Area has challenging terrain with a good variety of soil types for vehicle recreation. Sparse vegetation allows for easy cross-country travel. There are few known resource values in this popular competitive event area.

(61) **YUHA BASIN** — Designated Roads & Trails
East of Ocotillo between Highway 8 and Sunrise Butte. This area is rich in paleontological, archeological & historical values. These values are protected for scientific study by restricting travel to designated roads.

(62) **DAVIES VALLEY** — Special Design
South of Ocotillo. This scenic valley contains good wildlife habitat, unique vegetation, and known archeological values. Special design will protect resources and allow continued recreation use of the area.

(63) **CRUCIFIXION THORN** — Closed
Six miles east of Ocotillo on Hwy. 98. This unique stand of relatively rare crucifixion thorn is closed for protection of its botanic value.

(64) **PINTO WASH** — Special Design
Southwest of Plaster City. Past & present recreation vehicle use is heavy. Adjacent to International Border. A popular competitive event area.

(65) **MAMMOTH WASH** — Open
Located at the north end of the Imperial Sand Dunes & north of Hwy. 78. Because the sand dunes in this area are small it has become a popular place for four-wheel drive vehicles.

(66) **GLAMIS/IMPERIAL SAND DUNES** (North) — Closed
Eighteen miles east of Brawley, north of State Highway 78. The dune area contains outstanding natural values. Plant and animal life show qualities worthy of preserving for scientific study and non-vehicular recreation. This area contains a registered National Landmark. The closure does not include the area around the Glamis Store. Corridors have been provided between the top of the high dunes and the vegetation west of the high dunes (between Hwy. 78 and the Mammoth Wash area), and along the north side of Hwy. 78 from the high dunes to Glamis.

(67) **EAST MESA** — Special Design
Located across the Coachella Canal west of the Imperial Sand Dunes & south of Highway 78. Because of known archeological values & geothermal steam resources this popular recreation vehicle competition area is designated "special design," and competitive events will be permitted.

(68) **GLAMIS/IMPERIAL SAND DUNES** (South) — Open
North of I-8 to Highway 78 and 40 miles east of El Centro. A popular and heavily used dune buggy area. This broad expanse of sand gives the recreation vehicle a wide variety of challenges.

(69) **PLANK ROAD** — Special Design
Near Gray's Well. This area features a segment of wooden road built in the early days to carry traffic across the sand. For public safety, camping will be restricted in the area.

(70) **BUTTERCUP VALLEY** — Open
Ten miles west of Yuma, Arizona & south of I-8. This popular dune area will be open to recreation vehicle use. Access from I-8 is limited.

(71) **PICACHO** — Designated Roads & Trails
Fifteen miles north of Yuma, Arizona & west of the Colorado River. The closing of certain roads will protect scenic and primitive values. Other considerations requiring designation of roads and trails are the private lands and cooperative management programs with other public agencies.

VEHICLE MANAGEMENT PROGRAM

The California Desert Vehicle Management Program is part of the Bureau of Land Management's total program of interim critical management of the desert. It was developed in 1973 in response to a resource emergency resulting from unmanaged and often conflicting uses of the national resource lands of the desert by large numbers of people.

The program is designed to implement Executive Order 11644 of February 8, 1972, which requires management of off-road vehicles on all federal lands "to protect the resources of those lands, to promote the safety of all users of those lands, and to minimize conflicts among the various uses of those lands."

The program also implements regulations issued by the Secretary of the Interior on May 15, 1974, to carry out the intent of the executive order by designating areas as open, closed or restricted to off-road vehicle use.

The program was first implemented on November 1, 1973. This document represents the initial revision.

Persons who wish additional information on this or other Bureau of Land Management programs for the California Desert may contact the Riverside District Office, 1414 University Avenue, Riverside; Bakersfield District Office, 800 Truxtun Avenue, Bakersfield; or the resource area offices at Barstow or El Centro in the Desert Area.

PLAN REVIEW AND UPDATE

There will be further changes. As more is learned there will be some realignment of area boundaries, further restrictions, if deemed necessary, to protect people and resources, and some broad areas will remain open, some will remain closed. Roads and trails open to use will be mapped and ultimately posted.

The ultimate aim of the program is to provide for wise multiple use of the desert in a manner protecting people and the resources upon which they depend.

DEPARTMENT OF THE INTERIOR

As the nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, fish, wildlife, mineral, land, park and recreation resources. Indian and territorial affairs are other concerns of America's "Department of Natural Resources." The Department works to assure the wisest choice in managing all our resources so each makes it full contribution to a better United States — now and in the future.

BUREAU OF LAND MANAGEMENT

The Bureau of Land Management is the agency of the Department of the Interior charged with the multiple-use management of the 453 million acres of national resource lands of the United States. These lands are located mostly in Alaska and the 11 western states. There are approximately 16 million acres of national resource lands under BLM jurisdiction in California.

Dear Mr. Gillette:

Enclosed is your approved Group Special Recreation Use Permit for your events from June 4, 1976 through November 8, 1976.

A Special Recreation Use Permit does not give full and complete title to the lands.

In addition to the original permit you will find five (5) copies of the Post Use Questionnaire. Fill out one Post Use Questionnaire for each event and return it to this office within 10 days after the event.

We hope you will have a successful season. If we can be of further assistance, please contact us.

Sincerely yours,

GAIL G. GIVENS

1. This permit is issued for the period specified below. It is revocable for any breach of conditions hereof or at the discretion of the authorized officer of the Bureau of Land Management, at any time upon notice, if in his judgment the lands should be devoted to another use. This permit is subject to valid adverse claims heretofore or hereafter acquired.

2. This permit is subject to all applicable provisions of the regulations (43 CFR 18) which are made a part hereof.

3. This permit is subject to the provisions of Executive Order No. 11246 of September 24, 1965, as amended, which sets forth the Equal Opportunity clauses. A copy of this order may be obtained from the signing officer.

4. This permit may not be assigned.

~~XXXX

ORV PERMIT - SPECIAL STIPULATIONS
FOR APPLICATIONS COVERING MORE THAN ONE EVENT

(1) The permittee must pay the United States a fee of $1.00 per vehicle per day or any part thereof or 5 percent of gross receipts (income from the event, before deducting costs such as insurance, prizes, taxes etc.), whichever is greater. At his discretion, the District Manager may require payment in advance. Any difference in the advance fee and the actual fee must be reconciled by the permittee and BLM after the Post Use Questionnaire is completed by the permittee and analyzed by BLM. For permits covering multiple events, such reconciliation may be handled at the end of the permit period, if the District Manager so advises the permittee.

(2) In addition, to the performance bond or other security or guarantee of performance already provided by the permittee an additional amount of $ -0- is required to provide for replacement and/or repair of now existing improvements or values which may be destroyed or damaged during the event.

(3) The permittee assumes responsibility for public safety and health during any phase of the events, including, but not limited

Dear Mr. Gillette:

Enclosed you will find two copies of Special Recreation Use Permit #CA-060-SR6-29 (B through F) for use of public lands located on El Mirage Dry Lake. This permit will be issued for the periods:

June 4 through June 7, 1976
July 9 through July 12, 1976
September 17 through September 20, 1976
October 15 through October 18, 1976
November 5 through November 8, 1976

and will be in force from June to November inclusive.

Read, sign, and return both copies of the attached Special Recreation Use Permit to this office immediately. Once both permits are authorized in our office, one will be returned to you. A self-addressed envelope is provided for your convenience.

Thank you for your cooperation. If you have any further questions, feel free to contact us.

PENALTY FOR PRIVATE USE TO AVOID PAYMENT OF POSTAGE, $300

to the following items, which must meet BLM approval:*

(a) Monitors for spectator control, to include positive attempts to control pit racing.

(b) Safety patrolmen on the competitive course, plus flagmen at all road and railroad crossings (see Item #13 & 14 of these Special Stipulations).

(c) Sanitary facilities must meet county standards and standards of the California Department of Health and Welfare Service.

(d) Trash receptacles to handle expected need.

(e) For non-competitive events: ~~first aid, retrieval and evacuation facilities proportionate to the size of the event. Ample communication facilities~~ on site to coordinate the event safely and cope with emergencies.

(f) For competitive events: The permittee will designate a qualified first aid coordinator to organize and provide qualified first aid personnel, equipped with first aid equipment, communications and transportation to assist accident victims quickly. This coordinator will be present at the event to direct emergency procedures.

(4) The permittee assumes responsibility to confine participating vehicles to the marked course.

(5) The permittee will take every reasonable precaution to protect

* District Managers have discretionary authority to withhold future permits for violation of safety procedures

significant natural resource values, cultural, or historic objects aesthetic values, any improvement on the public lands involved. Permittee shall reconstruct, repair, rehabilitate and restore any government owned structure property, land or resources harmed or damaged by the permittee participants, or spectators associated with the permitted use as may be required by BLM within 30 days after the event so that the concition thereof in the judgment of BLM is at least equal to the condition thereof immediately prior to such damage or destruction. Permittee further shall abate as soon as practicable, any person, structure, property, land, stream, or wildlife.

(6) The permittee will destribute written instructions or will hold a prerace briefing at the site to inform participants of routes, regulations, safety procedures and other necessary directives. Permittee shall supply a copy of this data and the location of the briefing site to the BLM.

(7) If the permittee does not attend the event himself, he will notify the District Manager of his substitute's name and planned headquarters for the event. If requested by BLM, the permittee or his representative is required to accompany a BLM official at inspections before, during or after the event.

(8) The permittee will, within 10 days after each event, send to the District Manager the completed Post Use Questionnaire (Form 6260-3).

(9) The permittee shall make every effort to prevent, report, control

and suppress any fire in the operating area and will be held responsible for suppression and cost of fire caused on National Resource Lands through negligence of his participants.

(10) If any affiliate not named on the application participates in sponsorship, management, or conduct of the events the permit shall be null and void.

(11) Nothing in this permit shall be construed as permitting the sale of alcoholic beverages on BLM lands.

(12) If any death occurs in connection with an event, including spectators, participants or bystanders, the permittee must notify BLM and other proper authorities immediately and confirm with a death or injury report (CSO-6260-3a). Additionally, the permittee shall submit such reports to the BLM within ten days after the event, all serious injuries (loss of limb or eye, fractured skull or back, other prolonged hospitalization, etc.).

(13) No change of the route is allowed without BLM approval. Permittee agrees that for all stipulated on-grade crossings of automobile routes and railroads, he will provide danger-markings and flagmen who wave each competing vehicle to a stop and wave it across only when it is completely safe. Cycles must be pushed across. Permittee also agrees to place flagmen, or other means of warning, at other potential dangers along the route, such as mining hazards. The route must cross roads at a 90° angle to the direction of the road.

14) Any stipulations by agencies or individuals who grant permission for a route to cross automobile routes or railroads are made a part of these Special Conditions and must be met by the permittee. Note especially that Section 38025 of the California Vehicle Code states in part, "With respect to crossing of a highway having two or more lanes, or a highway having two or more lanes, or a highway having limited access, such motor vehicles may cross such highways but only at a place designated by the Department of Transportation".

15) The encampments, pit areas, staging areas, checkpoints, courses and any other areas used for an event must be cleaned of litter and course markings by 5:00 P.M. on the Wednesday immediately following each event unless a special exception is granted by the BLM.

16) Permittee shall observe all applicable Federal laws and regulations. In addition, permittee shall observe all State and local laws and regulations and ordinances applicable to the premises insofar as they do not prohibit the use authorized by this permit. Permittee shall observe all Federal, State and local laws and regulations applicable to the erection or maintenance of signs or advertising displays, and laws and regulations for the protection of fish and wildlife. Permittee shall keep the premises which are the subject of this permit, in a neat, orderly and sanitary condition.

(17) Changes in race dates and locations can be made on approval of the District Manager.

(18) The approval of specific races under this permit is subject to a decision regarding the environmental impact of each race. If an analysis of environmental damage is likely to occur from the conduct of an event, that event may be eliminated from the schedule. Re-routing of race courses or rescheduling of events may also be made by the District Manager on the basis of an analysis of the environmental impacts of each race.

(19) Supplemental materials for each specific race including a course map, certification of private land owner's consent (if other than BLM land is crossed), color of ribbon to be used, sanitary facilities to be provided, name of the race referee, type and extent of resource service provided and a supplementary application (Form CSO-6263-1) must be submitted to the BLM office responsible for issuing the permit. The supplementary application is available from the Barstow Bureau of Land Management office. This material must be submitted to the BLM at least 90 days prior to the scheduled date of the event.

(20) If all the conditions of this permit are not met, permission to conduct subsequent specific races may be withheld or the permit may be revoked.

(21) This permit authorizes the dates and locations listed below as available to the permittee. Final authorization or denial of any specific event will be issued 30 days prior to the event.

Additional stipulations concerning any individual event may be included at any time.

(21) This permit authorizes five (5) events on the dates and locations listed below:

	DATE	LOCATION	
A.	5/16/76	El Mirage Dry Lake	Permission to run this date is denied.
B.	6/6/76	El Mirage Dry Lake	
C.	7/11/76	El Mirage Dry Lake	
D.	9/19/76	El Mirage Dry Lake	
E.	10/17/76	El Mirage Dry Lake	
F.	11/7/76	El Mirage Dry Lake	

ORV SLUP - UNDERTAKING

WHEREAS, So. CALIF. TIMING ASSOC (name of Organization or Applicant) desires to give an undertaking to secure each and every obligation which he undertakes to perform as set forth in Special Land Use Permit No. CA-060-SRS-29 dated Feb 17, 1976

NOW, THEREFORE, we the undersigned sureties do hereby obligate ourselves jointly and severally to the United States of America in the sum of $ 400.00. If it is determined by the authorized officer of the Bureau of Land Management that permittee has failed to fulfill or satisfy any or all of its obligations specified in such special land use permit, we will pay such amounts as the authorized officer of the Bureau of Land Management may determine will adequately compensate the United States as a result of permittee's said failure to perform said obligations not exceeding the sum above specified.

ELMO F. GILLETTE, one of the undersigned sureties is engaged in SALES MANAGER (occupation) and resides at 1221 ITUNI ST. W. COVINA, California. 91790

SPECIAL STIPULATIONS

The following must be submitted before an application is approved and a permit issued. This information must be submitted within days after the date of application:

a. Three (3) copies of a topographic map (scale 1:62,500 unless otherwise specified by District Manager) showing area of proposed use with routes, parking, staging areas, proposed improvements, and other points of intensive use specifically identified. U.S. Geological Survey topographic quadrangle maps are available from U.S.G.S. offices and from numerous private concerns. Addresses are available at all BLM District Offices. *Planning unit maps* are also available at most BLM District Offices to help determine land ownership patterns in planning your route.

b. A list of the owners on record for lands involved other than national resource lands.

c. Evidence that permission has been obtained from all private landowners whose property is affected by the event, route, access, pits, parking areas, or any other action associated with the event or use. Applicant also must inform other pertinent public agencies *(law enforcement, highway, fish and game, etc.)*. Bureau of Land Management will contact other authorized users of national resource lands, etc.

d. A certificate from an insurer that comprehensive insurance has been obtained for this use or event in the minimum amount of (1) $ for bodily injury for any one person; $ for any one occurrence; and (2) $ property damage for any one occurrence. The certificate *must* also state that such insurance is in force and that the insurer will give the United States ten (10) days notice prior to cancellation or modification of such insurance.

e. An acceptable bond, surety, cash deposit, or other acceptable guarantee of payment in the amount of $ to secure payment of the special recreation use fee and mitigation of damages.

I CERTIFY That the information given by me in this application is true, complete, and correct to the best of my knowledge and belief and is given in good faith.

Warren C. Ballis Treasurer SCTA Feb. 13, 1976

(Signature of Applicant) (Date)

Title 18 U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

INSTRUCTIONS

1. Type or print clearly

2. Submit, in *duplicate*, to any local office of the Bureau of Land Management having jurisdiction of the lands.

3. Application *must* be accompanied by a nonrefundable filing fee of $10, made payable to the Bureau of Land Management. No filing fee is required if applicant is a Federal, State, local government agency, or noncommercial organization charging no fees.

4. Enter "NA" following questions or statements which are not appropriate.

GPO 859-014

SPECIAL RECREATION USE PERMIT
(Long Form)

Permission is hereby granted to Joe Striss of the United Racing Assn.

of 6600 Gerald Avenue
Van Nuys, CA 91406

to use the following-described lands:

TOWNSHIP	RANGE	SECTION	SUBDIVISION
See Attached Map			

Meridian	State	County	Acres *(number)*
San Bernardino	California	San Bernardino	--------

for the purpose of

conducting a motorcycle enduro event

and subject to the following conditions:

1. This permit is issued for the period specified below. It is revocable for any breach of conditions hereof or at the discretion of the authorized officer of the Bureau of Land Management, at any time upon notice, if in his judgment the lands should be devoted to another use. This permit is subject to valid adverse claims heretofore or hereafter acquired.

2. This permit is subject to all applicable provisions of the regulations (43 CFR 18) which are made a part hereof.

3. This permit is subject to the provisions of Executive Order No. 11246 of September 24, 1965, as amended, which sets forth the Equal Opportunity clauses. A copy of this order may be obtained from the signing officer.

4. This permit may not be assigned.

5. [illegible] See Item #1, Special Stipulations

6. Permittee shall observe all Federal, State, and local laws and regulations applicable to the premises; to erection or maintenance of signs or advertising displays including the regulations for the protection of game birds and game animals, and shall keep the premises in a neat, orderly, and sanitary condition.

7. Permittee shall take all reasonable precautions to prevent and suppress forest, brush, and grass fire and to prevent pollution of waters on or in vicinity of the lands.

8. Permittee shall not enclose roads or trails commonly in public use.

9. Permittee shall pay the United States for any damage to its property resulting from this use.

10. Permittee shall notify the authorized officer of address change immediately.

11. Permittee shall not cut any timber on the lands without prior written permission from the authorized officer.

12. Permittee shall indemnify, defend, and hold harmless the United States and/or its agencies and representatives against and from any and all demands, claims, or liabilities of every nature whatsoever including, but not limited to, damages to property, injuries to or death of persons, arising directly or indirectly from, or in any way connected with the permittee's use and occupancy of the lands described in this permit or with the event authorized under this permit.

Dear Mr. Burpo:

We have portable toilets available for organized ORV events. They consist of two chemical toilets and two sinks mounted on a trailer. The water in the sinks is for washing only and is not suitable for drinking.

The toilets are pumped and cleaned by a commercial operator. Users pick the toilets up and return them to the operator's site. Additionally, they pay the operator a $15.00 cleaning fee for each unit (trailer with two toilets and two sinks).

If you wish to use these toilets for your event, please notify this office as early as possible so that we can accommodate you. There is a limited number of toilets, and we may not have enough available for everyone on heavy use weekends.

Sincerely yours,

Robert L. Kenff

Dear Mr. Tartter:

Enclosed are two copies of the approved Group Special Recreation Use Permit for your events from May 30, 1976 to December 12, 1976.

A Special Recreation Use Permit does not give full and complete title to the lands.

As stated in the Special Stipulations, final permission or denial of each individual event will come 30 days prior to the event concerned.

We hope you will have a successful season. If we can be of further assistance, please contact us.

Sincerely yours,

GAIL GIVENS

for the purpose of conducting motorcycle races and enduros.

and subject to the following conditions:

1. This permit is issued for the period specified below. It is revocable for any breach of conditions hereof or at the discretion of the authorized officer of the Bureau of Land Management, at any time upon notice, if in his judgment the lands should be devoted to another use. This permit is subject to valid adverse claims heretofore or hereafter acquired.

2. This permit is subject to all applicable provisions of the regulations (43 CFR 18) which are made a part hereof.

3. This permit is subject to the provisions of Executive Order No. 11246 of September 24, 1965, as amended, which sets forth the Equal Opportunity clauses. A copy of this order may be obtained from the signing officer.

4. This permit may not be assigned.

5. ~~Permittee shall pay the United States the amount required if any, as determined by the authorized officer of the Bureau of Land Management.~~ See Item #1 - Special Stipulations.

6. Permittee shall observe all Federal, State, and local laws and regulations applicable to the premises; to erection or maintenance of signs or advertising displays including the regulations for the protection of game birds and game animals, and shall keep the premises in a neat, orderly, and sanitary condition.

7. Permittee shall take all reasonable precautions to prevent and suppress forest, brush, and grass fire and to prevent pollution of waters on or in vicinity of the lands.

8. Permittee shall not enclose roads or trails commonly in public use.

9. Permittee shall pay the United States for any damage to its property resulting from this use.

10. Permittee shall notify the authorized officer of address change immediately.

11. Permittee shall not cut any timber on the lands without prior written permission from the authorized officer.

12. Permittee shall indemnify, defend, and hold harmless the United States and/or its agencies and representatives against and from any and all demands, claims, or liabilities of every nature whatsoever including, but not limited to, damages to property, injuries to or death of persons, arising directly or indirectly from, or in any way connected with, the permittee's use and occupancy of the lands described in this permit or with the event authorized under this permit.

13. Authorized representatives of the Department of the Interior, other Federal agencies, and game wardens shall, at all times, have the right to enter the premises on official business.

14. Special conditions 1) See Attached Special Stipulations.

2) I have read the Special Recreation Use Permit and attached Special Stipulations and agree to comply with them.

Dear Mr. Tartter:

Enclosed you will find two copies of your Special Recreation Use Permit #CA-060-SR6-32 (E through CC) and attached Special Stipulations for use of public lands located in the Western half of San Bernardino County.

Please sign both copies of the permit and return them to this office within 10 days of receipt of this letter. We will then return your authorized copy to you and keep the other copy in our files. The permit is invalid until it has been signed by both you and the Area Manager.

The permit you are now signing authorizes race dates and locations only. Final permission for any specific event will be issued 30 days prior to the event after you have submitted the required information listed in the Special Stipulations of this permit. Holding an event without the final authorization would be handled as a trespass.

The dates and locations which are approved by this permit are listed in Item #21 of the Special Stipulations. If the list is incomplete or incorrect, please notify this office as soon as possible.

Thank you for your cooperation. If you have further questions, feel free to contact us.

Sincerely yours,

GAIL GIVENS

ORV PERMIT - SPECIAL STIPULATIONS

FOR APPLICATIONS COVERING MORE THAN ONE EVENT

1) The permittee must pay the United States a fee of $1.00 per vehicle per day or any part thereof or 5 percent of gross receipts (income from the event, before deducting costs such as insurance, prizes, taxes etc.), whichever is greater. At his discretion, the District Manager may require payment in advance. Any difference in the advance fee and the actual fee must be reconciled by the permittee and BLM after the Post Use Questionnaire is completed by the permittee and analyzed by BLM. For permits covering multiple events, such reconciliation may be handled at the end of the permit period, if the District Manager so advises the permittee.

2) In addition, to the performance bond or other security or guarantee of performance already provided by the permittee an additional amount ~~of xx$xxxxxxxxxxxx~~ maybe is required to provide for replacement and/or repair of now existing improvements or values which may be destroyed or damaged during the event.

3) The permittee assumes responsibility for public safety and health during any phase of the events, including, but not limited

to the following items, which must meet BLM approval:*

(a) Monitors for spectator control, to include positive attempts to control pit racing.

(b) Safety patrolmen on the competitive course, plus flagmen at all road and railroad crossings (see Item #13 & 14 of these Special Stipulations).

(c) Sanitary facilities must meet county standards and standards of the California Department of Health and Welfare Service.

(d) Trash receptacles to handle expected need.

(e) For non-competitive events:

first aid, retrieval and evacuation facilities proportionate to the size of the event. Ample communication facilities on site to coordinate the event safely and cope with emergencies.

(f) For competitive events: The permittee will designate a qualified first aid coordinator to organize and provide qualified first aid personnel, equipped with first aid equipment, communications and transportation to assist accident victims quickly. This coordinator will be present at the event to direct emergency procedures.

(4) The permittee assumes responsibility to confine participating vehicles to the marked course.

(5) The permittee will take every reasonable precaution to protect

* District Managers have discretionary authority to withhold future permits for violation of safety procedures

significant natural resource values, cultural, or historic objects aesthetic values, any improvement on the public lands involved. Permittee shall reconstruct, repair, rehabilitate and restore any government owned structure property, land or resources harmed or damaged by the permittee participants, or spectators associated with the permitted use as may be required by BLM within 30 days after the event so that the concition thereof in the judgment of BLM is at least equal to the condition thereof immediately prior to such damage or destruction. Permittee further shall abate as soon as practicable, any person, structure, property, land, stream, or wildlife.

6) The permittee will destribute written instructions or will hold a prerace briefing at the site to inform participants of routes, regulations, safety procedures and other necessary directives. Permittee shall supply a copy of this data and the location of the briefing site to the BLM.

7) If the permittee does not attend the event himself, he will notify the District Manager of his substitute's name and planned headquarters for the event. If requested by BLM, the permittee or his representative is required to accompany a BLM official at inspections before, during or after the event.

8) The permittee will, within 10 days after each event, send to the District Manager the completed Post Use Questionnaire (Form 6260-3).

9) The permittee shall make every effort to prevent, report, control

and suppress any fire in the operating area and will be held responsible for suppression and cost of fire caused on National Resource Lands through negligence of his participants.

10) If any affiliate not named on the application participates in sponsorship, management, or conduct of the events the permit shall be null and void.

11) Nothing in this permit shall be construed as permitting the sale of alcoholic beverages on BLM lands.

12) If any death occurs in connection with an event, including spectators, participants or bystanders, the permittee must notify BLM and other proper authorities immediately and confirm with a death or injury report (CSO-6260-3a). Additionally, the permittee shall submit such reports to the BLM within ten days after the event, all serious injuries (loss of limb or eye, fractured skull or back, other prolonged hospitalization, etc.).

13) No change of the route is allowed without BLM approval. Permittee agrees that for all stipulated on-grade crossings of automobile routes and railroads, he will provide danger-markings and flagmen who wave each competing vehicle to a stop and wave it across only when it is completely safe. Cycles must be pushed across. Permittee also agrees to place flagmen, or other means of warning, at other potential dangers along the route, such as mining hazards. The route must cross roads at a 90° angle to the direction of the road.

4) Any stipulations by agencies or individuals who grant permission for a route to cross automobile routes or railroads are made a part of these Special Conditions and must be met by the permittee. Note especially that Section 38025 of the California Vehicle Code states in part, "With respect to crossing of a highway having two or more lanes, or a highway having two or more lanes, or a highway having limited access, such motor vehicles may cross such highways but only at a place designated by the Department of Transportation".

5) The encampments, pit areas, staging areas, checkpoints, courses and any other areas used for an event must be cleaned of litter and course markings by 5:00 P.M. on the Wednesday immediately following each event unless a special exception is granted by the BLM.

6) Permittee shall observe all applicable Federal laws and regulations. In addition, permittee shall observe all State and local laws and regulations and ordinances applicable to the premises insofar as they do not prohibit the use authorized by this permit. Permittee shall observe all Federal, State and local laws and regulations applicable to the erection or maintenance of signs or advertising displays, and laws and regulations for the protection of fish and wildlife. Permittee shall keep the premises which are the subject of this permit, in a neat, orderly and sanitary condition.

7) Changes in race dates and locations can be made on approval of the District Manager.

8) The approval of specific races under this permit is subject to a decision regarding the environmental impact of each race. If an analysis of environmental damage is likely to occur from the conduct of an event, that event may be eliminated from the schedule. Re-routing of race courses or rescheduling of events may also be made by the District Manager on the basis of an analysis of the environmental impacts of each race.

9) Supplemental materials for each specific race including a course map, certification of private land owner's consent (if other than BLM land is crossed), color of ribbon to be used, sanitary facilities to be provided, name of the race referee, type and extent of resource service provided and a supplementary application (Form CSO-6263-1) must be submitted to the BLM office responsible for issuing the permit. The supplementary application is available from the Barstow Bureau of Land Management office. This material must be submitted to the BLM at least 90 days prior to the scheduled date of the event.

0) If all the conditions of this permit are not met, permission to conduct subsequent specific races may be withheld or the permit may be revoked.

1) This permit authorizes the dates and locations listed below as available to the permittee. Final authorization or denial of any specific event will be issued 30 days prior to the event.

Additional stipulations concerning any individual event may be included at any time.

Dear Mr. Tartter:

We have received your Special Recreation Use Permit application #CA-060-SR6-32 for multiple events.

Enclosed is a list of requirements for obtaining ORV Special Recreation Use Permits.

By April 2, 1976, you must submit the enclosed Undertaking and Affidavit forms (item 3B) to this office.

Within ninety (90) days prior to each event you must submit to this office:

1. Required Map (item 2B).

2. Supplemental Application (Form CSO-6263-1).

Within sixty (60) days prior to each event you must submit to this office:

1. Landowner's Consent (item 4).

2. Insurance Policy (item 5).

If we do not receive these items by the above deadline your application will be considered incomplete and the permit will not be issued.

Please be sure to notify your insurance company of your deadline.

San Diego, CA 92115

Dear Dennis:

Enclosed you will find a copy of your approved Special Recreation Permit CA-060-SR6-20 for use of public lands located in the Southeast Desert Resource Area. Your permit has been issued for one (1) year and will be in force from February 22, 1976 to February 22, 1977.

A Special Recreation Use Permit does not give full and complete title to the lands, nor does it confer any rights to public lands other than (1) those designated on the approved course map attached to the use permit and (2) permission to use the lands for the purpose that is designated on the permit.

Thank you for your cooperation.

Sincerely yours,

/s/ Barry H. Ashworth

Acting W. Cliff Yardley
Area Manager
Southeast Desert

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

FORM APPROVED
OMB NO. 42-R1663

☐ Filing fee ☐ Free Use

SPECIAL RECREATION PERMIT
(Long Form)

Permit No. CA-060-SR6-2(

Permission is hereby granted to Dennis N. Gillihan

of San Diego Sports Committee, Inc. District 38, AMA

to use the following-described lands:

TOWNSHIP	RANGE	SECTION	SUBDIVISION

Authorized off-road vehicle competition areas in Southeast Desert Resource Area.

Meridian	State	County	Acres *(number)*

for the purpose of

Motorcycle racing

and subject to the following conditions:

1. This permit is issued for the period specified below. It is revocable for any breach of conditions hereof or at the discretion of the authorized officer of the Bureau of Land Management, at any time upon notice, if in his judgment the lands should be devoted to another use. This permit is subject to valid adverse claims heretofore or hereafter ac[illegible]d.

2. This permit is subject to all applicable provisions of the regulations (43 CFR 18 and Subpart 6263) which are made a part thereof.

3. This permit is subject to the provisions of Executive Order No. 11246 of September 24, 1965, as amended, which sets forth the Equal Opportunity clauses. A copy of this order may be obtained from the signing officer.

4. This permit may not be assigned.

5. Permittee *must* pay to authorized officer, in advance, the sum of dollars ($) or such other sum as may be required, if an adjustment is made. No refunds of less than ten dollars ($10) will be made.

6. Permittee shall observe all Federal, State, and local laws and regulations applicable to the premises; to erection or maintenance of signs or advertising displays including the regulations for the protection of game birds and game animals, and shall keep the premises in a neat, orderly, and sanitary condition.

7. Permittee shall take all reasonable precautions to prevent and suppress forest, brush, and grass fire and to prevent pollution of waters on or in vicinity of the lands.

8. Permittee shall not enclose roads or trails commonly in public use.

9. Permittee shall pay the United States for any damage to its property resulting from this use.

10. Permittee shall notify the authorized officer of address change immediately.

11. Permittee shall not cut any timber on the lands without prior written permission from the authorized officer.

12. Permittee shall indemnify, defend, and hold harmless the United States and/or its agencies and representatives against and from any and all demands, claims, or liabilities of every nature whatsoever including, but not limited to damages to property, injuries to or death of persons, arising directly or indirectly from, or in any way connected with, the permittee's use and occupancy of the lands described in this permit or with the event authorized under this permit.

13. Authorized representatives of the Department of the Interior, other Federal agencies, and game wardens shall, at all times, have the right to enter the premises on official business.

14. Special conditions

(Continued on reverse)

ORV PERMIT - SPECIAL STIPULATIONS

(1) The permittee must pay the United States a fee of $1.00 per vehicle per day or any part thereof or 5 percent of gross receipts (income from the event, before deducting costs such as insurance, prizes, taxes, etc.), whichever is greater. At his discretion, the district manager may require payment in advance. Any differences in the advance fee and the actual fee must be reconciled by the permittee and BLM after the Post Use Questionaire is completed by the permittee and analyzed by BLM. For permits covering multiple events, such reconciliation may be handled at the end of the permit period, if the District Manager so advises the permittee.

(2) The permittee shall furnish a performance bond or other security or guarantee of performance deemed satisfactory by the District Manager (with the exact amount and type of security set at the District Manager's discretion, depending upon the size of the event, potential damages, and other factors) in the amount of $ 400.00. Such bond or security must be made in favor of the United States and shall insure the faithful performance of all terms and conditions of the permit, including the payment of all fees, litter clean-up and removal of route markers.

(3) The following applies to insurance:

(a) The permittee is required to obtain and maintain a comprehensive liability insurance policy in which the United States is a named insured or an additional insured covering the operations of the permittee under the permit in the following minimum amounts.

1. $100,000 for bodily injury to any one person and $300,000 for any one occurrence.

2. $10,000 for property damage for any one occurrence.

(b) The permittee will submit said policy of insurance at the time he submits his application or at such other time as the District Manager may specify. The permittee must also submit evidence that the insurer agrees to give the United States 10 days notice prior to the cancellation or modification of such insurance.

(4) The permittee agrees to assume responsibility for public safety and health during any phase of ~~this~~ the event, including, but not limited to the following items, which must meet BLM approval:*

(a) Monitors for spectator control, to include positive attempts to control pit racing.

(b) Safety patrolmen on the competitive course, plus flagmen at all road and railroad crossings (see Items 15 & 16 of these Special Conditions).

(c) Sanitary facilities must meet county standards and standards of the California Department of Health and Welfare Service.

(d) Trash receptacles to handle expected need.

(e) For non-competitive events:

first aid, retrieval and evacuation facilities proportionate to the size of the event.

Ample communication facilities on site to coordinate the event

* If the permittee fails to comply with BLM approved safety precautions it might result in denial of any future permits for a maximum of two years.

safely and cope with emergencies.

(f) For competitive events: The permittee will designate a qualified first aid coordinator to organize and provide qualified first aid personnel, equipped with first aid equipment, communications and transportation to assist accident victims quickly. This coordinator will be present at the event to direct emergency procedures.

(5) Where counties do not require written permission for vehicles to cross private lands, the permittee must submit a statement (Appendix 11, CSO 6260-8) assuring that all private landowners whose property is affected by the event have been contacted and given their permission or consent of use.

Where counties require written permission for vehicles to cross private lands the permittee must submit a statement (Appendix 12, CSO 6260-9) assuring evidence of such permission has been filed with the county. Evidence of such filing must be attached to the statement.

(6) The permittee assumes responsibility to confine participating vehicles to the marked course.

(7) The permittee will take every reasonable precaution to protect significant natural resource values, cultural or historic objects, aesthetic values, any improvement on the public lands involved. Any government owned structures, property, land, or resource harmed or damaged by the permittee, participants, or spectators associated with the per-

mitted use shall be reconstructed, repaired, rehabilitated, and restored as may be required by BLM within 30 days after the event so that the condition thereof in the judgement of BLM is at least equal to the condition thereof immediately prior to such damage or destruction. Permittee further shall abate as soon as practicable, any condition existing which may cause harm or damage to any person, structure, property, land, stream, or wildlife.

(8) The permittee will distribute written instructions or will hold a pre-race briefing at the site to inform participants of routes, regulations, safety procedures and other necessary directives. A copy of this information and location of briefing location will be provided to the BLM.

(9) If the permittee does not attend the event himself, he will notify the District Manager of his substitute's name and planned headquarters for the event. If requested by BLM, the permittee or his representative is required to accompany a BLM official at inspections before, during or after the event.

(10) The permittee will, within 10 days after ~~the~~ each event, send to the District Manager the completed Post Use Questionaire (Form 6260-3).

(11) The permittee shall make every effort to prevent, report control and suppress any fire in the operating area and will be held responsible for suppression and cost of fire caused on natural resource lands through negligence of his participants.

(12) If any affiliate not named on the application participates in sponsorship, management, or conduct of ~~the~~ event, the permit shall be null and void.

(13) Nothing in this permit shall be construed as permitting the sale of alocoholic beverages on BLM lands.

(14) If any death occurs in connection with ~~this~~ an event, including spectators, participants or bystanders, the permittee must notify BLM immediately and confirm with a death or injury report (CSO-6260-3a). Additionally, the permittee must submit such reports to the BLM within ten days after all serious injuries (loss of limb or eye, fractured skull or back, other prolonged hospitalization, etc.).

(15) No change of ~~the~~ a route is allowed without BLM approval. During the race, on-grade stipulated crossings of automobile routes and railroads require danger markings and flagmen who wave each competing vehicle to a stop and wave it across only when it is completely safe. Cycles must be pushed across. Flagmen, or other means of warning, must be posted at other potential dangers along the route, such as mining hazards. The route must cross roads at a 90° angle to the direction of the road.

(16) Any stipulations by agencies or individuals who grant permission for ~~the~~ a route to cross automobile routes or railroads are made a part of these Special Conditions and must be met by the permittee. Note especially that Section 38025 of the California Vehicle Code states

in part, "With respect to crossing of a highway having two or more lanes, or a highway having two or more lanes, or a highway having limited access, such motor vehicles may cross such highways but only at a place designated by the Department of Transportation."

(17) The encampments, pit areas, staging areas, checkpoints, courses and any other areas used for ~~the~~ an event must be cleaned of litter and course markings within 10 days after the event.

(18) Permittee shall observe all applicable Federal laws and regulations. In addition, permittee shall observe all State and local laws and regulations applicable to the premises insofar as they do not conflict with the use authorized by or the terms of this permit. Permittee shall observe all Federal, State and local laws and regulations applicable to the erection or maintenance of signs or advertising displays, and laws and regulations for the protection of fish and wildlife. Permittee shall keep the premises which are the subject of this permit, in a neat, orderly and sanitary condition.

Additional Special Conditions for Annual Off-Road Vehicle Permits

19. Changes in race dates and locations can be made on approval of the District Manager.

20. The approval of specific races under this permit is subject to a decision regarding the environmental impact of each race. If an analysis of environmental impacts shows that an unacceptable level of environmental damage is likely to occur from the conduct of an event, that event may be eliminated from the schedule. Re-routing of race courses or rescheduling of events may also be made by the District Manager on the basis of an analysis of the environmental impacts of each race.

21. Supplemental materials for each specific race, including a course map, certification of private landowners consent (if necessary), and a supplemental application, must be submitted to BLM at least 60 days prior to the scheduled date of the race.

22. If all the conditions of this permit are not met, permission to conduct specific races may be withheld or the permit may be revoked.

23. Authorized race dates are as follows:

February 22, 1976
March 7, 1976
March 14, 1976
March 21, 1976
March 28, 1976
April 4, 1976

SPECIAL CONDITIONS

Plaster City Area

1. Race courses must not be located within one-half mile of wildlife guzzlers.

2. Crossings of the Butterfield Overland Stage Route must be in washes or previously used race courses.

3. Pit areas must be located in gravel pits or other disturbed areas.

For Navy Lease Area #58

4 The permittee will contact the Navy at (714) 339-2655 by 1:00 p.m. the Friday before the event to assure the availability of the land.

5. The permittee will take all precautions to insure that race participants and their associates stay off the marked Navy bombing range.

SUGGESTED SAFETY PRECAUTIONS

Sweep Riders:

a. At least two.

b. One first aid trained.

c. First aid kit.

Checkpoints:

Checkpoints will either have radio communications or first aid equipment with a trained first aider present.

Evacuation vehicles:

a. At least one.

b. Ability to traverse the terrain.

c. Radio equipped.

d. First aid trained person per vehicle.

e. First aid equipment (backboard, litter, blanket, splint, set, first aid kit and extra equipment).

Base First Aid Station (can be evacuation vehicle or certified ambulance) to include:

a. BLM ranger link (if possible)

b. First aid station marked in pit area.

c. Trained first aid person.

d. Certified ambulance to be available.

Coordination

Certified ambulance and event personnel will coordinate course emergency evacuation. Transfer points, and emergency facilities to include:

a. What transfer points will be used for ambulance on call.

b. Notice of event time, place, and number of people.

c. All event personnel, first aid units, and checkpoints will have an accurate course map and knowledge of event procedures.

Dear Mr. Gillihan:

You are hereby authorized to conduct a motorcycle race sponsored by El Cajon Motorcycle Club on April 11, 1976, in accordance with Special Recreation Use Permit #CA-060-SR6-20 (4/11).

A map of the approved course is enclosed. A copy of this letter, along with a course map, Special Conditions of the permit, Post Event Data forms and Death or Injury Report forms will be sent to the sponsoring club.

Thank you for your cooperation.

Sincerely yours,

/s/ [illegible]

APPENDIX # 6

UNITED STATES GOVERNMENT

Memorandum

DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Riverside District Office
1695 Spruce Street
Riverside, CA 92507

IN REPLY REFER TO:

To : Acting District Manager, Riverside

Date: JUN 3 1976

FROM : Area Manager, Cima Resource Area

SUBJECT : Analysis of Barstow-Vegas Motorcycle Race Application Dated 4/21/76

Comparing the subject SRUP application CA-060-SR6-40 dated 4/21/76 and SRUP application CA-060-SR6-38 dated 3/11/76 and denied as per decision dated 4/8/76, the following differences are apparent:

1. The start area is new as it is moved some 8 miles east.
2. The main camping area is also new and 8 miles east.
3. The remainder of the course follows the 1974 routing including areas identified as problems in the 1974 event evaluation. The previous application had extensive re-routing away from the 1974 course.

From an ORV program management point of view the new application does not change the approach that must be made. A complete analysis of this approach may be found in my memo of March 18, 1976, a copy of which is attached. An abstract of the major points of this approach are as follows.

1. Due to the recurring nature of the event multiyear-cumulative impacts must be analysed.
2. Due to a history of applications and inquiries for additional events on the route such as motorcycle races, motorcyle enduros, and 4-wheel drive enduros and races the concept of more than 1 type of event and 1 event per year must also be addressed.
3. The above 2 items are more efficiently addressed in a single analysis and report.
4. The controversy and potential for impacts on the environment of these events deems mandatory a major environmental assessment.
5. Due to present priorities and funding constraints, the man months and expertise are not presently available for the magnitude of environmental assessment needed.

My recommendation is therefore to deny application CA-060-SR6-40 on the same grounds as the previous application.

Jorgen J. Sullivan

IN REPLY REFER TO:
(C-068)

To : District Manager

Date: MAR 19 1976

FROM : Area Manager East Desert

SUBJECT: Proposed Plan for Environmental Assessment of Barstow-Vegas ORV Events

Purpose & Scope

We have applications for 2 Motorcycle Enduros, anticipate a Thanksgiving Weekend Hare & Hound application from the San Gabriel M.C. and have had inquiries on a 4 wheel event either a race or an enduro all on previously run Barstow to Vegas or Baker to Vegas event routes.

The recurring similar nature of these requests suggests that the entire matter be addressed on a multi year cumulative impact basis. In any given year the proposed action would be a mixture of proposed events. These events would each be described thoroughly and incorporate the best known event management methods.

The typical years events for the route would be as follows:

Motorcycle Hare & Hound, Point to Point - Thanksgiving(late November)
Motorcycle Enduro - Memorial Day (late May)
4 Wheel Event (race or enduro) - Washington's Birthday (Mid-Feb.)

The scope of the analysis would include cumulative impacts from several standpoints:

1. Different types of events
2. More than one event per year
3. More than 1 year of events

In order to identify the size and nature of the increments of impact a system of alternatives would be devised and identified at the outset.

Study Area

Approximately 80% of the study area would be the same as the 1974 event. The proposed route changes are in the vicinity of the Crucifixion Thorn area, Cat Mountain, Silver Dry Lake and Stateline. All of these changes proposed would be over courses used in the past.

Schedule - (Assumes EIS review procedures)

May 1 - Begin Environmental Assessment
June 5 - All materials to Writer/Editor and Cartography
June 15 - Submit Draft to Dept of Interior for Review and Approval to Proceed
July 5 - Public Review of Draft Begins
Aug 20 - Close public comment period, Draft revision and Department review
Sept. 10 - Publish Final
Oct. 10 - Close public comment period
Oct. 15 - Decision Day
Nov. 27 - Event Day - Hare & Hound M.C. Race

It should be noted that this schedule involves 7 months of elapsed time or approximately 210 days.

Statement/EAR Outline

Proposed Barstow to Las Vegas Motorcycle Race

I. Description of the Proposal

A. Proposed Action

B. Federal Action Involved

C. Location

D. Changes from 1974 Barstow-Vegas Race

II. Description of the Environment

A. Non-Living

1. Topography

2. Climate

3. Geology and Minerals

4. Water

5. Soils

6. Air

7. Noise

B. Living Components

1. Vegetation

2. Wildlife

C. Human Interest Values

D. Other Uses

III. Environmental Impacts of the Proposed Action

A. Non-Living

1. Topography

2. Water

3. Soils

4. Air

5. Paleontology

6. Noise

B. Living Components

1. General

2. Impacts on Vegetation

3. Impacts on Wildlife

C. Cumulative Impacts Since 1974 Barstow-Vegas EIS

D. Human Interest Values

E. Other Uses

IV. Mitigating Measures

A. BLM Responsibilities

1. Compliance Inspections

2. Providing Field Personnel

3. Establishing Sample Points

B. Special Conditions of the SLUP

C. Site Specific Mitigation

V. Adverse Impacts That Cannot Be Avoided Should the Proposal Be Implemented

A. Introduction

B. Water

C. Soils

D. Air

E. Noise

F. Living Components

G. Human Interest

VI. Relationship Between Local Short-Term Uses of the Environment and Maintenance and Enhancement of Long-Term Productivity

VII. Irreversible and Irretrievable Commitment of Resources

VIII. Alternatives to the Proposed Action

A. Rejection of Application (No Action)

B. Alternative Routes

C. Barstow Start Area

IX. Consultation and Coordination with Others

X. References

IX. Appendices

Organization of the Analysis Effort

A. The East Desert Resource Area will have the responsibility for preparation of the Environmental Assessment.

B. Individual Assignments:

Assessment Leader - 1 lead individual for $2\frac{1}{2}$ MM

Non-Living Team Lead:	1 lead individual for 2 MM 2 additional people for 1 MM each
Living Team Lead	1 lead individual for 2 MM 4 additional individuals for 1 MM each
Human Interest and Other Uses Team Lead	1 lead individual for 2 MM 7 additional individuals for 1 MM each
Writer Editor	1 individual for 1 MM
Reviewer	1 MM
Cartographer	Approx 1/2 MM
Total MM's needed	23 MM

Public Involvement Plan

A. Issuance or denial of these permits will spark a great deal of controversy from many different sources. These courses should be made aware of the application, the various factors involved, and should be given an opportunity to make comments and provide input at the earliest possible stages of the effort. This should be done with news releases, personal contacts, and by mail.

B. Persons, agencies and groups who have stated an interest in this application, or whom we believe may have an interest when they become aware of it, include, but are not limited to:

Congresswoman Shirley Pettis, 37th Congressional District

State of California State Lands Commission

Committee on Environmental Quality

President's Committee on Historical Preservation

San Bernardino County Board of Supervisors

Environmental Protection Agency of San Bernardino County

San Bernardino County Air Pollution Control Board

Lahontan Water Quality Control Board

San Bernardino County Sheriff

California Highway Patrol

Cal Trans

Union Pacific Railroad Co.

Board of Supervisors of Clark County, Nevada

Clark County Sheriff

Nevada Highway Patrol

Las Vegas Metropolitan Police Department

C. News releases and other contacts with people and agencies will request sentiments as to whether the permit should be issued, and the reasoning behind the sentiments. The contact should also be a "laying the cards on the table" type of disclosure, and should elicit comment from agencies or organizations as to whether they would actively oppose running of the race or issuance of the permit, and what form such opposition would take.

ESTIMATED COSTS

One time items

EA/EIS	23 MM
Travel, supplies, etc.	$5,000

Recurring items (annually for 3 events)

Permit compliance	6 MM
Monitoring impacts	4 MM
	10 MM/yr.
Travel and Misc. costs	$2,000

Total 1st year costs

33 man months
$10,000 misc.

Total annually recurring costs

10 man months/yr.
$2,000 travel and misc. costs
